Message from The Dean

Warm greetings from Sikkim Manipal Institute of Medical Sciences (SMIMS).

I deem it my privilege to welcome you to join SMIMS. At SMIMS we strive for excellence in teaching, research and promoting the health of East Indian population. Our goal is, to make our students understand the subjects in the medical field well and develop both professional skills and attitudes so that they feel confident to serve not only in India but also anywhere in the world. We want to inculcate in our students, the habit of ethical practice and encourage them to be compassionate doctors.

Over the last 20 years, SMIMS has created a niche for itself by being consistently ranked among the top 10 emerging medical colleges in India (8th among top 23 private medical colleges in India as per Outlook- ICARE rankings 2022). This has been possible because of the dedicated and erudite faculty; and world-class facilities for learning. Our college has produced some of the most successful doctors in India and abroad. I appeal to you to visit the testimonial section for a glimpse of testimonials from our alumni.

SMIMS has its own teaching hospital - Central Referral Hospital (CRH), the only state-of-the-art private hospital in the state of Sikkim. The Government of Sikkim, under the public-private partnership has kindly allowed our students to have clinical skills learning at the State Government-run Tertiary Care Hospital and PHUs.

The medical college also has a good reputation in the field of research. Many of our faculty have received research grants from various government and non-government organizations. Students are encouraged to participate in ICMR-funded research projects and present them in Student Research Conferences. We also encourage our students to participate in co-curricular activities and sports.

On behalf of the management and faculty, I assure you the best of experience at SMIMS. Once again, welcome to SMIMS.

2.5.3 Paramedical Courses

The Sikkim Manipal University looking at the need of Allied Health Professionals (AHPS) not only in India but all over the world has introduced a number of Paramedical courses .

These courses are designed for young adults who choose Health Care as a profession not as doctors or nurses but to play several other critical roles.

The quality of Medical Care has improved over a period of time due to advances in technology and it is now accepted that health service delivery is a team effort involving both Clinicians and Non Clinicians and is not the sole duty of Doctors and Nurses. Professionals who can handle sophisticated machinery and advance protocols are in high demand.

Students entering these courses will learn to integrate their knowledge, Skills and abilities in a hands on manner at the Central Referral Hospital, Gangtok.

The curriculum for most of the above courses has been adopted from the Ministry of Health and Family Welfare Allied Health Section 2015-16 Model Curriculum Handbooks in support of the aim of the Indian Government for Universal Health Coverage.

Also, in consonance with the National Education Policy, 2020, these courses have been introduced with multiple entry and exit strategy and modular structure (two years' diploma and three years' bachelor's program). A student who has joined bachelor's degree course does not wish to continue to third year after completion of second year, he will be awarded a diploma in the corresponding course after 6 months of internship. "My experience at Sikkim Manipal College of Physiotherapy, SMIMS Gangtok, has been wonderful till now. Since I joined this college and I have learned a lot. To be honest, Medical School is hard work, but you must hustle until you make it. Here at SMCPT, they are well equipped with the facilities that brings about the best in us.

SMCPT provides opportunities for both academic and extracurriculars activities, as that demonstrates who we are outside of the classroom and assists in showcasing our leadership skills and community involvement. I'm more than grateful to have made the right decision to come to this esteemed institution."

"The SMU campus Physiotherapy course was the best decision I made and was the first step towards a successful career. Since graduating in 2008 from the SMU campus, I haven't looked back. The excellent teaching I received at SMU gave me the skills and knowledge to launch me into a rewarding career as a Sports physiotherapist. The facilities were excellent and the teaching staffs were passionate, supportive and progressive. The course is well designed to bring all of the relevant information together; making it easy to learn. The hands-on nature of the course allows students to apply the knowledge in real-life scenarios and develop the required clinical skills. I'd highly recommend the SMU Bachelor of Physiotherapy, and the university itself, to any budding physiotherapists out there."
